

The genesis of the ores of Tonopah, Nevada

Filesize: 4 MB

Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Juliet Mertz)

THE GENESIS OF THE ORES OF TONOPAH, NEVADA

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 Excerpt: . . . arise: Are these waters now depositing ores If not, what relation, if any, do they bear to the solutions that did deposit the ores Water from the Halifax mine, 1, 400-footlevel, about 380 feet east of the shaft, flowing as a small stream from a fracture in slightly mineralized Mizpah trachyte, had when collected a temperature of 106 F. (41 C). This water was not acid toward methyl red solution and was not alkaline toward phenolphthalein. It was colorless, clear, and tasteless. Water from the Tonopah Belmont mine, 1, 500-foot level, about 100 feet north of the Belmont vein, had as it issued from the rock a temperature of 99 F. (37 C). It flowed from drill holes and small fractures in the face of a crosscut and was depositing a sludgy mass of hydrous oxides of iron (ocher-yellow) and oxides of manganese (black). The water as tested in the mine was not acid to methyl red solution and did not appear to be alkaline to phenolphthalein. Field tests with standard potassium permanganate solution showed that practically all the iron was in the ferrous condition. Two gallons of this water was collected and was analyzed by Chase Palmer, of the Geological Survey, with the results shown on page 29. A sample of water from the Mizpah mine, collected by Spurr, was analyzed by R. C. Wells, of the Geological Survey, in 1910; the results are also recorded in the table. This water flowed from a drill...
