Composites & Mechanics. Paperback. Book Condition: New. Paperback. 112 pages. Dimensions: 9.8in. x 6.9in. x 0.4in. In this memoir for the ages, the internationally renowned MIT professor James H. Williams, Jr. poses the breathtaking question What happens to the love between two people when they die To answer his question, he explores four very different loving relationships with four very different females and plumbs the depths of modern cosmology and physics. Via love's quantum packets of love Professor Williams concludes that mutually intense love can indeed be eternal. Advance Praise (Short Version) a beautifully written memoir powerful and creative A brilliantly thought-provoking masterwork. Advance Praise (Extended Version) When so much writing about love is cheap or superficial, it is a great and overdue pleasure to have this book by James H. Williams, Jr. Though his book is startling and exciting in its implications and clearly written from the heart, Professor Williams has also trained his powerful intellect and impressive scientific training on the vexed issue of love's essence and its sources to argue plausibly and scientifically! that love is eternal. I have never read a book like this before. It is truly one-of-a-kind, but the magic of the book is to leave you feeling more powerfully bound to those you love. If you have ever loved anyone deeply, you will not forget this book. A brilliantly thought-provoking masterwork. Andrew Szanton, coauthor of Have No Fear, the acclaimed memoir of civil rights leader Charles Evers This is a beautifully written memoir by an esteemed engineering professor at MIT that offers a fascinating, plausible and accessible scientific explanation of a subject that for thousands of years has been deemed the province not of science but of the arts love. To do so, he examines the rich relationships he shares with four women and...
